

The American Clean Energy and Security Act:

“To me, the American Clean Energy and Security Act means **jobs for Indiana**”

– **Terry Black, *Green Way Supply* Indiana**

The American Clean Energy and Security Act will make a real difference for America, and my business.

By jump-starting a clean energy economy, it will create demand for steel for wind turbines, energy efficient windows for new construction, and thousands of other products made in America – including Earth-friendly building supplies that my company provides here in Indiana.

The American Clean Energy and Security Act will cut oil imports, create new jobs, and keep energy affordable. It's the right choice for America.
