## The American Clean Energy and Security Act:

“To us, the American Clean Energy and Security Act means **jobs for Maryland**”

– Rick Peters and Roger Perry,  
*Solar Energy Services*  
Millersville, MD

---

The American Clean Energy and Security Act will make a real difference for America, and our business. By jump-starting a clean energy economy, it will create demand for steel for wind turbines, energy efficient windows for new construction, and thousands of other products made in America – including design and installation of solar systems that our company provides here in Maryland.

The American Clean Energy and Security Act will cut oil imports, create new jobs, and keep energy affordable. It's the right choice for America.
