
The American Clean Energy and Security Act:

“To me, the American Clean Energy and Security Act means **jobs for Minnesota.**”

– **Rick Miller,**

Eden Prairie, Minnesota

The American Clean Energy and Security Act will make a real difference for America, and my business. By jump-starting a clean energy economy, it will create demand for steel for wind turbines, energy efficient windows for new construction, and thousands of other products made in America – including green energy solutions that my company installs here in Minnesota.

The American Clean Energy and Security Act will cut oil imports, create new jobs, and keep energy affordable. The future strength of America is in your hands.
