

## The American Clean Energy and Security Act:

**“Paul Hodes and Carol Shea-Porter’s vote for the *American Clean Energy and Security Act* means jobs for New Hampshire.”**

— Jim Grady,  
*LighTec*  
Merrimack, New Hampshire

Representatives Paul Hodes and Carol Shea-Porter are looking out for New Hampshire small business. They just voted for the *American Clean Energy and Security Act*, which will bring us clean, American-made energy — and help companies like mine hire more workers. By jump-starting a clean energy economy, this legislation will create demand for steel for wind turbines, energy efficient windows for new construction, and thousands of other products made in America — including my company’s energy efficient lighting systems, designed and built for schools, municipalities and businesses here in New Hampshire.

**Reps. Paul Hodes and Carol Shea-Porter:  
Thank You for Creating New Opportunities for New Hampshire  
Small Business.**
