

# Thank you Senators Carper and Coons for working to pass chemical safety reform

This is an ordinary living room. Unfortunately, the average living room has thousands of chemicals hidden in furniture, clothing and cleaning products that have never been tested for health risks. Our nation's broken chemical law means the EPA is virtually powerless to restrict dangerous toxic chemicals.

Senators Tom Carper and Chris Coons have joined Democrats and Republicans in the effort to pass chemical safety reform. This reform will help keep harmful chemicals out of our homes and away from our families.

Find out how this bill will help keep our families healthy by visiting [FixTSCAnow.org](http://FixTSCAnow.org).

WALL PAINT  
Toluene

CANDLE  
Phthalates

COUCH  
Flame Retardant
