

SENATOR GARDNER:

**SIDED WITH SPECIAL
INTERESTS INSTEAD OF
TAXPAYERS AND FAMILIES.
HE CHOSE WRONG.**

For months now, industry lobbyists have been trying to get Senator Gardner to roll back common-sense standards that reduce natural gas waste, save taxpayer money, and protect public health. Unfortunately, Senator Gardner voted to help the special interests instead of taxpayers and families. Colorado families deserve better.

Call Senator Gardner. Tell him it's time to stand up to special interests, and put the interests of Coloradans first.

May 10, Senate Vote 125, H.J.Res. 36
