The Honorable Frank Pallone
Chairman
House Committee on Energy and Commerce
2107 Rayburn House Office Building
Washington, DC 20515

The Honorable Cathy McMorris Rodgers
Ranking Member
House Committee on Energy and Commerce
1035 Longworth House Office Building
Washington, D.C. 20515

Dear Chairman Pallone and Ranking Member Rodgers:

The Center for Liquefied Natural Gas (CLNG) and its members support the proposed resolution of disapproval under the Congressional Review Act (CRA) and the reinstatement of regulations of methane emissions from the natural gas sector.

CLNG believes that reducing methane and other greenhouse gas emissions is essential to creating a clean energy future for all. We support the reinstatement of previous methane regulations in addition to voluntary efforts the U.S. LNG industry is proactively taking to address methane emissions. With billions of dollars in investment to reduce methane through innovative technologies and practices, the U.S. LNG industry is serious about tackling methane.

CLNG appreciates the leadership of the many House members who recognize the role natural gas and LNG play in reducing emissions across the globe, while also realizing the economic benefits natural gas creates here at home.

Sincerely,

A handwritten signature in black ink, appearing to read "C. Riedl", is positioned below the "Sincerely," text.

Charlie Riedl
Executive Director, Center for LNG
