
The American Clean Energy and Security Act:

“To me, the American Clean Energy and Security Act means **jobs for Florida.**”

– **Bill Johnson, *Brilliant Harvest***
Florida

The American Clean Energy and Security Act will make a real difference for America, and my business.

By jump-starting a clean energy economy, it will create demand for steel for wind turbines, energy efficient windows for new construction, and thousands of other products made in America – including solar power and heating systems that my company installs here in Florida.

The American Clean Energy and Security Act will cut oil imports, create new jobs, and keep energy affordable.

It's the right choice for America.
