

The American Clean Energy and Security Act:

“To me, the American Clean Energy and Security Act means **jobs for Delaware.**”

– **Stephen Grot, *Ion Power***
New Castle, Delaware

The American Clean Energy and Security Act will make a real difference for America, and my business. By jump-starting a clean energy economy, it will create demand for steel for wind turbines, energy efficient windows for new construction, and thousands of other products made in America – including fuel cell components that my company makes here in Delaware.

The American Clean Energy and Security Act will cut oil imports, create new jobs, and keep energy affordable. It's the right choice for America.

Rep. Michael Castle: Help Small Business Create Jobs
Vote for the American Clean Energy and Security Act
