Representatives James Clyburn and John Spratt:

Thank You for Creating New Opportunities for South Carolina’s Small Businesses and Rural Communities.

Congressmen James Clyburn and John Spratt are looking out for South Carolina’s small businesses and helping to revitalize rural economies. They just voted for the American Clean Energy and Security Act, which will bring us clean, American-made energy — and help companies like mine, as well as agricultural and forestry enterprises, hire a lot more workers. By jump-starting a clean energy economy, this legislation will create demand for steel for wind turbines, energy efficient windows, and thousands of other products made in America — including biomass energy solutions that my company will design and manufacture here in South Carolina.
