Thank You
Congressman Baron Hill

The American Clean Energy and Security Act =
More Jobs for Hoosiers

Last month, Congressman Baron Hill voted for the American Clean Energy and Security Act. It will boost clean, American-made energy and help companies in Indiana hire more workers.

The legislation will jump-start demand for steel for wind turbines, energy efficient windows for new construction, and thousands of other products made in America.

And it will cut oil imports by $20 billion a year. A good deal for Indiana and America.
